Migrating from Oracle Primavera P6 to Oracle Primavera Cloud

Migrating from Oracle Primavera P6 to Oracle Primavera Cloud

Migration journey from Primavera P6

Your migration journey will depend on your organization's readiness.

Oracle Primavera Cloud integrates planning, scheduling, and resource and risk management. It's the industry's only solution that combines CPM contract scheduling and task management in a single cloud environment.

This guide will give you an overview of the migration journey and help you understand the steps for a successful migration.

Customer Stories

- [ITER Fusion Powers Project with Oracle's Primavera P6](#) ITER energy project, a collaboration of 35 nations to build the largest tokamak in the world, selected Oracle's Primavera P6 EPPM. P6 has enabled schedule integration and consistent coding across the 250 individual projects ITER consists of.
